

MICRONIC

Traceable Sampling Solutions

NEW SampleWare

Samples Managed Simply

Improve your laboratory's efficiency with SampleWare, laboratory management software that allows you to store, organize, and track your sample data.

Micronic Starter Packs - complete with Tracker 2D barcoded tubes, caps, racks, and a reader for storing and tracing your samples

Samples are stored in the 2D barcoded tubes

Micronic Tracker 2D barcode

2D barcodes are read on any laboratory reader or scanner

Data from barcode readers and other lab equipment

Now you can efficiently track the data from your lab's [physical samples](#), [vector maps](#), [sequence files](#), and [gel images](#) and share them with colleagues across a network.

Data is imported into SampleWare

What is SampleWare?

- Laboratory Information Management System (LIMS) that allows you to organize and track individual samples in your library
- Inventory system compatible with barcode scanning and RFID technology
- Customizable database to match your unique workflow
- Cost-effective software solution: less expensive, easier to implement, and more flexible than other programs, and more reliable than older systems

How does SampleWare work?

- Define custom data templates to match your specific storage needs
- Create a directory tree based on project, owner, physical location, or other criteria
- Enter data through a spreadsheet interface or a graphic container interface
- Use the search tools to find specific samples, and eliminate the need to manually sift through sample data

SampleWare

Samples Managed Simply

Getting Started with SampleWare

Installation to implementation in minutes, with only a few simple steps and some help from the Quick Menu.

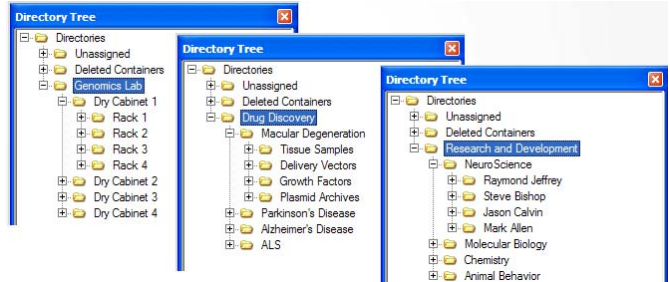

SampleWare Features:

Custom Data Templates

- Create to match the types of specific samples being stored or tracked
- No limit to the number of data templates

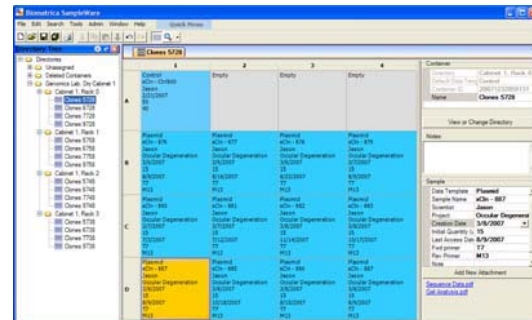

Flexible Data-Organization Hierarchy

- Arrange data to match your lab's operational workflow
- Order by sample location, experiment, or scientist - no folder limit

Spreadsheet Data Entry and Copy/Paste From Excel

- Excel-like spreadsheet, simple setup for easy data entry
- Copy from Excel to import existing data
- Export to Excel to create reports

Container View

- Displays data in 'box-top,' real world view
- Enables quick sample location/retrieval
- Samples can be color-coded by sample type

Sample Search

- Simple search: Google-like global search, works in an instant
- Advanced search: highly-specific search, finds exact samples or groups

2D Barcode/RFID Interface

- Insert sample data from 2D barcode readers' sample lists (easy cut/paste process)
- Cut/paste readers' lists for use in search engine

Storage Barcoding

- Assign IDs for cabinets, doors, shelves, racks, etc.
- Store all assigned IDs in database with samples for quick locating and retrieval

Software Pricing:

Item #	Description	Price
MP40105	SampleWare Version 3.0 Basic Edition <ul style="list-style-type: none"> • 5000-sample limit - Microsoft Access database - Single-computer access 	\$1,500.00
MP40110	SampleWare Version 3.0 Desktop Edition <ul style="list-style-type: none"> • No sample limit - Microsoft Access database - Single-computer access 	\$3,000.00
MP40115	SampleWare Version 3.0 Network Edition <ul style="list-style-type: none"> • No sample limit - SQL server database - Network access 	\$4,500.00
