

**NEW!**

# ErgoOne™

## Pipetting optimized for performance and comfort:

- Light, balanced weight reduces fatigue
- Uniform, complete tip application requires minimal force
- Plunger forces maximize control with minimal stress
- Contoured hand grip for comfortable use
- 4-digit display increases precision
- Curved finger rest relaxes your grip
- Plunger height accommodates large and small hands
- Volume adjustment and lock can be set with one hand
- Ejector button position reduces strain
- Durable body is autoclavable and resists chemicals

Your pipettor is one of your most important laboratory instruments. It must be accurate, precise, and reliable. And, as one of your most frequently used instruments, it must be comfortable to use and provide the features you need.

ErgoOne™ pipets combine researcher requested features with the latest ergonomic principles to provide optimum performance. Smooth, even plunger forces give you maximum control over sample delivery while minimizing repetitive strain. Tip application requires minimal pressure for complete sealing. The handle and curved support hook promote a natural, relaxed grip, and the body length has been optimized for reduced arm stress.

The four-digit volume display is positioned for both left and right handed users. The volume adjustment control can be unlocked and set with just one hand.

ErgoOne™ pipets are color coded by volume, easy to calibrate in the lab, and are fully autoclavable. The body is made from durable, UV- and chemical-resistant polypropylene. Each pipet carries an individual serial number and is supplied with a certificate of EN ISO 8655 quality test results. A full range of volumes are available, all with a three-year warranty.

### Pipet Stands for ErgoOne™

Linear white acrylic stand. Holds ErgoOne and other pipettors with curved support hooks. Measures 11 3/4" W x 6 1/4" D X 10 3/4" H. 3071-0560

Carousel stand for up to 8 ErgoOne pipets. 7200-0000

3071-0560

**Special offer!**  
Receive a free pack of TipOne® pipet tips with each ErgoOne™ pipettor\*.

### Ordering information for ErgoOne adjustable volume pipets.

\*Each includes a pack of 10 TipOne® 96-tip racks (non-filter) in a size that corresponds to the pipettor.

#### ErgoOne™ Single Channel Pipettors

Cat. No.	Volume	Increments
7100-0125	0.1-2.5 µl	0.002 µl
7100-0510	0.5-10 µl	0.01 µl
7100-0221	2-20 µl with ultra micro tip cone	0.02 µl
7100-0220	2-20 µl with standard tip cone	0.02 µl
7100-1100	10-100 µl	0.1 µl
7100-2200	20-200 µl	0.2 µl
7110-1000	100-1000 µl	1 µl
7150-5000	500-5000 µl	5 µl

product design award

2010

### International Forum Design Award

ErgoOne has received the iF product design award for ergonomic and intuitive design.
