

**CHROMATOGRAPHIC
SPECIALTIES INC.**

Dear Valued Customers,

With much Gratitude for our 25 years of Service to Canadian Life Scientists, we are pleased to announce that we are merging with our sister Company – Chromatographic Specialties Inc. (CSI).

Chromatographic Specialties (CSI) has been serving Canadian Researchers for 60 years! CSI is where I began my first big girl job and from where ^{MJS}BioLynx emerged to distribute quality Life Science products in Canada. We will continue into the 3rd generation of our Family-run business with no changes other than ^{MJS} BioLynx will be a brand of the Chromatographic Specialties Inc. company moving forward.

We hope that this transition makes your life easier as we will be able to offer our Life Sciences products, Chromatography Products, and Instrumentation all in one place!

Please continue to contact us as usual and reach out to us if you have any questions or concerns.
